Pocket Surfer –
www.pocketsurfer.co.uk

ACCESSING the internet on most mobile devices is a tedious affair. Download speeds have us threatening our gadgets with a concrete meeting plus it's oh-so-expensive and we only ever get crappy half pages to view. The Pocket Surfer is a super smart arse in this area, delivering not only full-sized web pages as the geeks intended but at flat-rate fees – and all in a rather dashing, cigar-like case.

3D Mapping –
www.mio-tech.b

THE Belgians are about to unleash 3D software on to Saltfay scene to reignite a excitement that surrounded early arrivals of these dashboard boxes. It offers elevated, three-angle of surrounding bu landmarks and might g feeling of controlling from a few hundred above as many an games do.
